

## Marinushof Pinot Nero

---

**Winery:** Marinushof  
**Category:** Wine – Still - Red  
**Grape Variety:** Blauburgunder/ Pinot Nero  
**Region:** Kastelbel/ Alto Adige/ Italy  
**Vineyard:** Neuraut / Kastelbell  
**Winery established:** 2004

## Product Information

---

**Soil:** Slate, stony, light

**Age of vines:** 36 years old

**Vinification & Yield:** Fermented 7 days in stainless steel at 28 C controlled temperature. Aged in 100% barrique, where 25% is new barrique

**Tasting Note:** This vine-fruit of old vines, greatly reduced in yield, is said to reflect the Vinschgau as a good Pinot area. Typical Burgundy aromas (red berries, cherries, almonds), juicy and spicy on the palate, mild acid, fine wood note, length. A wine with elegance and a long-life expectancy.

**Production:** 2,900 bottles

**Alc:** 13 %

**Residual Sugar:** 0 g/l

**Acidity:** 4.8 g/l

## Producer Information

---

Heiner and Sabrina Pohl, returning to their roots after studying and working in multinational companies, run a sustainable farm at Marinushof, situated above Castelbello. A mixed culture is maintained on the modern farm: wine, apples, distillery, farm holiday and a large wine shop complement each other. Sonnenberg in Val Venosta is excellently suited for wine growing. Many hours of sunlight, dry climate and prehistoric slate rocks provide the perfect site for Burgundy varieties as Pinot Noir and Pinot Gris, and for others as Riesling and Zweigelt. Vibrant wines with character, structure and charm grow here. In the distillery, the famous fruits from Val Venosta are transformed to first class schnapps. "Our Goal is," says Heiner Pohl, "to transform the best fruits to its quintessence, without adding aromas sugar."

Heiner Pohl owns this tiny winery nestled in the pristine area of Kastelbell in Val Venosta close by the Stelvio Natural Park. The ingredients are simple: old vines planted on terraces of slate-rich soil at 650 meter elevation. The result is: extremely elegant wines with great texture and never-ending finish.
